

Model: TCAINVR4001-FR

04 CHANNEL

Our products are designed with the latest security technologies and provide you with the opportunity to address your security issues with the most hi-tech solutions.

Information:

- ▶ Embedded Operation System
- ▶ Fashionable UI of Windows style
- ▶ Support H.265/H.264 of decoding
- ▶ Support output of HDMI/VGA
- ▶ Support maximum resolution 4*2MP
- ▶ Support 1 USB interface
- ▶ Support GB28181
- ▶ Configuring one SATA interface, support access 2.5 inch removable hard drive
- ▶ Support real-time comparison, Face playback, Face trajectory, quickly entering database of strangers, Face database synchronization, Stay and wander alarm, VIP Guest arrival, traffic statistic, Attendance statistics, Face playback, Face path analysis
- ▶ Support cloud technology, easy to achieve its function by intelligent mobile phones

Specification:

Video interface

Operation System	Embedded Linux
Interface style	Windows interface style
Face channels' number	Four channels
Playback	Support 1-way main stream playback

Peripheral interface

source	DC
Network port	1*100M Single port
Video interface	HDMI/VGA Dual output
USB interface	1
SATA interface	1

Intelligent face

Real-time comparison	Support four-channels comparison at the same time
Face database management	Support quickly entering database of strangers and synchronization for remote import of face database
Face deploying	Support push blacklist alarm
Face intelligent application	Stay and wander alarm , VIP Guest arrival, traffic statistic, Attendance statistics, Face playback, Face path analysis

Standard protocols

Network protocol	Support TCP/IP, NTP, DHCP, UDP, SMTP, RTSP, DNS, HTTP, P2P
National standard	Support GB28181
Mobile	Android, IOS

Generic parameter

power supply

DC 12V/2A

size

17.8*15.8*3.5

Power consumption

<10W(without hard disk)

suitable environment

temperature-20°C-45°C , humidity10%-90%
