

TL200

Fingerprint Lock

With voice-guided Feature

TL200 is a fingerprint lock with voice-guided feature, which makes operation very easy and quick. It uses the mechanical anti-theft mortise with one latch and two security deadbolts, that allows users to lock the door from both indoor and outdoor. Meanwhile, TL200 has various approaches to open the door, such as with fingerprint, password, card and key. It has one sliding metal cover to protect the fingerprint sensor and keypad. All in all, TL200 presents the advanced electromechanical technology, which provides high home security and great convenience..
